

## Informatica Metadata Manager 9.x

### Course Description

#### Delivery Methods

- Public Instructor-led training
- Onsite Instructor-led training

#### Course Duration

- Two Days of instructor-led training
- 60% lecture, 40% hands on lab

#### Target Audience

- MM power users
- Metadata Administrators

#### Prerequisites

- Metadata concepts
- Database concepts
- Basic PowerCenter familiarity

#### Pricing

- R 7,000 excluding VAT

### Course Overview

This two day course is intended for end users who need to use the MM user interface in their daily activities involving lineage and impact analysis, and for Metadata Administration professionals who will administer the product and configure, execute and monitor metadata resource loads.

## Objectives

After successfully completing this course, students should be able to:

- Understand metadata concepts and configure Metadata Manager
- Set up security
- Configure, execute and monitor the loading and linking of metadata from source applications
- Define custom metadata models
- Load metadata for custom metadata models
- Load business glossary and link glossary terms with technical metadata objects
- Browse & search the metadata catalog
- Display & interact with lineage diagrams
- Find valuable information in lineage diagrams.

## Course Agenda

### 1. Overview

- Metadata
- Metadata Manager
- Metadata Manager terminology
- Metadata Manager architecture

### 2. Loading Metadata with a Packaged XConnect

- The Load Page
- Installing the Metadata Manager Agent
- Configuring Resources
- Executing the Loading, Indexing and Linking of Resources
- Monitoring the Correctness and Completeness of Loading and Linking of Resources

### 3. Loading Metadata with a Custom XConnect

- Loading Metadata from a metadata source for which Metadata Manager does not package a model and XConnect
- Defining Custom Model
- Defining and executing Custom XConnect

### 4. Reporting

- Reporting on metadata
- Exporting metadata reports

### 5. BG Xconnect

- Load BG Contents to MM
- Relating BG terms with MM terms

## ***Onsite Training***

On-site training courses are designed to meet your specific business needs and requirements. Convenient and cost-effective, on-site training events are delivered at your location to reduce impact on your day-to-day business. Onsite training is ideal for companies who desire the flexibility of training at their location. You set the date and time, and we come to you! We provide a blending approach to learning – instructor-led training with hands on exercises and coaching – that encourages team building and collaboration, all in the convenience of your office.

Extremely cost effective for multiple students

- Your team is trained together
- Your team is accessible
- You pick the date

## ***Public Training & onDemand***

Courses are conveniently scheduled around the world. Please visit our website at [www.infoflow.co.za](http://www.infoflow.co.za) to find the class that is right for you.
